

Associate in Science (AS) in Business Analytics

The Associate in Science (AS) in Business Analytics program provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers such as business management analyst, database analyst, budget analyst, database administrator, and operations research analyst. The content includes but is not limited to the principles, procedures, and theories of producing financial and market intelligence by querying databases and creating reports and developing methods for identifying data trends existing in information sources.

Courses are offered in online or blended formats, with many courses offered in an accelerated eight-week fashion, to accommodate students' various schedules and learning preferences.

Graduates of the AS, Business Analytics program can matriculate into the BAS, Supervision & Management Degree at Florida SouthWestern State College.
